Fulbright Canada: For Immediate Release

May 17-21, 2015: Arctic Issues are Global Issues

The world is changing at a pace and in ways that were hardly imaginable even a decade ago. Climate change, along with new realities in the Arctic, is a key component of this change. How we address the challenges in the Arctic and what opportunities we pursue present us with pressing global issues. What used to be local problems are clearly now global problems. Addressing these challenges, and exploring new opportunities, is exactly what the Fulbright Arctic Initiative aims to achieve. Conducting comparative research, increasing awareness, and finding practical solutions to Arctic issues are the key goals of this recently launched multi-country research network. From May 17-21, 2015, Fulbright Canada will host the Inaugural meeting of the Fulbright Arctic Initiative in Iqaluit, Nunavut, Canada.

The Fulbright Arctic Initiative aims to stimulate international collaboration on Arctic issues by bringing together 17 scholars from the eight Arctic Council Countries (Canada, Denmark, Finland, Iceland, Norway, Russia, Sweden, and the United States). The project will proceed under the leadership of Dr. Ross Virginia and Dr. Mike Sfraga. It is the very first of its kind to bring together an international cohort of multidisciplinary researchers to work on the themes of Energy, Water, Health, and Infrastructure, with a specific focus on northern communities and on local, traditional, and indigenous knowledge.

The program was officially launched on April 22, 2015 in Ottawa, ON during a panel discussion entitled “The Challenges of Conducting Research in the Arctic”. U.S. Ambassador to Canada Bruce Heyman, discussed the importance of collaboration on Arctic issues and stressed that the Canadian and American governments work very closely in this area. The presentation coincided with the final Ministerial meeting of the Arctic Council under the Canadian Chairmanship, which was hosted in Iqaluit on April 24. As Fulbright Canada has a mandate to enhance mutual understanding between the people of Canada and the people of the United States of America by providing support to outstanding individuals and promoting important research, the themes of the Fulbright Arctic Initiative were chosen to reflect the goals of the Canadian and American Arctic chairmanships. “The four themes of the Fulbright Arctic Initiative reflect the central challenges and principal opportunities of the north. The entire project takes place in conjunction with the successful conclusion of the Canadian chairmanship of the Arctic Council and the transition to US leadership” states Michael K. Hawes, CEO of Fulbright Canada. “We are proud to be hosting the inaugural meeting in Canada, and specifically in Iqaluit so that the researchers can engage with community members, build capacity, and experience firsthand the realities of life in the Canadian north”.

The group of researchers will be meeting in Iqaluit to share their own research and to work out a plan for future collaborative research. They will also be meeting with Ambassador David Balton, Chair of the Senior Arctic Officials; the Honourable Peter Taptuna, Premier of Nunavut; Mary Ekho Wilman, Mayor of Iqaluit; Okalik Eegeesiak, Chair of the Inuit Circumpolar Council; Julia Gourley, U.S. Senior Arctic Official; Dr. Janet King, President of CanNor; and Dr. Gwen Healey, Director of the Qaujigiartiit Health Research Centre; amongst community members such as Elders and youth groups.
The Fulbright Arctic Initiative scholars are:

Co-Lead Scholars:
Dr. Mike Sfraga, Vice Chancellor, University of Alaska Fairbanks (UAF) Professor of Arctic Policy, School of Natural Resources and Extension
Dr. Ross Virginia, Director, Institute of Arctic Studies Myers Family. Professor of Environmental Studies, Adjunct Professor of Biological Sciences and Earth Sciences

Canada
Susan Chatwood, Health & Infrastructure, Public & Global Health
Dr. Trevor Lantz, Health & Infrastructure, Environmental Sciences
Dr. Gregory Poelzer, Energy, Political Science

Denmark
Dr. Anne Hansen, Health & Infrastructure, Environmental Sciences
Dr. Neils Vestergaard, Water, Economics

Finland
Dr. Laura Sokka, Energy, Environmental Sciences

Iceland
Dr. Bjarni Magnússon, Energy, Law

Norway
Dr. Gunhild Gjørv, Energy, Political Science
Dr. Øystein Varpe

Russia
Dr. Maria Tysiachiouk, Energy, Sociology

Sweden
Dr. Tom Arnbom, Water, Biological Sciences
Asli Dis, Health & Infrastructure, Urban Planning

USA
Dr. Linda Chamberlain, Health & Infrastructure, Public & Global Health
Dr. Tamara Harms, Water, Environmental Sciences
Dr. Gwen Holdmann, Health & Infrastructure, Engineering
Noor Johnson, Energy, Anthropology
Susanna “Itty” Newhaus-Schuck, Water, Art

Fulbright Canada
**Fulbright Arctic Initiative**

The Fulbright Arctic Initiative aims to stimulate international scientific collaboration on Arctic issues, while, at the same time, integrating models of traditional knowledge and increasing mutual understanding between the people of Canada, the United States, and the Arctic Council countries. It is designed to create a network of scholars, professionals, and applied researchers from the United States, Canada, Denmark, Finland, Iceland, Norway, Russia and Sweden to engage in collaborative research and to undertake an academic exchange. The Fulbright Arctic Initiative will provide a platform for scholars from across the Arctic region to engage in creative thinking, analysis, problem-solving, and multidisciplinary research in the following four areas: energy, water, health, and infrastructure. Co-Lead Scholars Dr. Michael Sfraga and Dr. Ross A. Virginia will provide intellectual leadership throughout the Program, in addition to mentoring program participants and facilitating discussion and collaboration among the Arctic Initiative Scholars. Seventeen outstanding international scholars, three of whom are Canadians, were announced on April 22, 2015, as participants of the program. Program activities will commence in spring 2015 and conclude in fall of 2016. The Fulbright Arctic Initiative is a program of the US Department of State, Bureau of Educational and Cultural Affairs (ECA).

**Fulbright Canada celebrates its 25th anniversary!**

Fulbright Canada is a binational, treaty-based, non-governmental, not-for-profit organization with a mandate to identify the best and brightest minds in both countries and engage them in residential academic exchange. Fulbright Canada is to enhance mutual understanding by providing research support to outstanding individuals. In doing so, Fulbright Canada aims to grow intellectual capacity, increase productivity, and assist in the shaping of future leaders. Since 1990, over 1500 students and scholars have participated in Fulbright Canada’s prestigious residential, academic and cultural exchange program. To celebrate the 25th anniversary of Fulbright Canada, the Foundation is engaging many key stakeholders and launching a series of events entitled “Challenging the Boundaries of Knowledge”.

Dear

I’m the External Relations manager for Fulbright Canada. Fulbright Canada is a non-governmental organization that promotes mutual understanding between Canada and the United States by providing research grants. Below you will find our latest press release entitled ‘Arctic Issues are Global Issues’ for a new Arctic program. Please contact me directly if you have any questions.

Best regards,
Michèle Phillips, mphillips@fulbright.ca, @FulbrightCanada, 613-255-1383

To celebrate the 25th anniversary of Fulbright Canada, the Foundation is engaging many key stakeholders and launching a series of events entitled “Challenging the Boundaries of Knowledge”.

U.S. Embassy In Ottawa
The United States has had representation in Canada since 1833, and has maintained an Embassy in Ottawa since 1943. The U.S. Ambassador to Canada is the personal representative of the President in conducting official relations between the two countries. He also oversees operations at U.S. consulates in Halifax, Quebec City, Montreal, Toronto, Calgary, and Vancouver, and an American Presence Post in Winnipeg. The U.S. Ambassador serves on the Fulbright Canada Board of Directors.
In addition to protecting the interest and welfare of American citizens and managing the bilateral relationship, the Embassy has played an important continuing role in facilitating U.S.-Canadian cooperation in multilateral fora including the United Nations, the Organization of American States (OAS), the North Atlantic Treaty Organization (NATO), the Organization for Economic Development and Cooperation (OECD) and the Asia-Pacific Economic Cooperation (APEC).
